

# Uponor ETI Company

Uponor ETI Company is a leading supplier in the United States of engineered plastic water and sewer systems to the municipal market. Founded in 1982, Uponor ETI has consistently led the industry in the introduction of innovative products such as Ultra-Blue [C909](#) and [IPS](#) oriented PVC water pipe, [Ultra-Rib](#) profile wall and [Ultra-Corr](#) corrugated wall PVC sewer pipe.

In addition to the Ultra product line in our [Pipe Division](#), Uponor ETI offers a complete line of PVC sewer and C900/905 water pipe.

The [Molded Access Products Division](#) product line includes [Mid-States Plastics, Inc.](#) patented polyethylene meter boxes and the [Wastewater Access Chamber](#), a molded polyethylene chamber designed to provide inspection, sampling and cleaning access to sanitary or storm drain systems.

With three manufacturing locations, we offer a diversified product range throughout the United States.
